Smart Contract: 0x537b5E7F9e72845037Ae81c1aBC64DA2abf0b9B

Network: Binance Smart Chain (BEP-20)

1. Introduction

The global financial order is shifting. Centralized institutions, long dominant, are now being challenged by decentralized, transparent, and borderless technologies like blockchain and cryptocurrency. Simultaneously, a global coalition of emerging economies is forging a new path toward multipolar power — the BRICS alliance: Brazil, Russia, India, China, and South Africa.

To align with this movement, BRICS Coin (BRX) is introduced as a community-driven utility and governance token inspired by the strength and unity of the BRICS nations. BRX aims to become a digital asset that symbolizes cooperation, sovereignty, and decentralization for the new era.

2. Vision and Purpose

BRX Coin was created to:

Symbolize economic independence and BRICS solidarity

Serve as a decentralized financial tool accessible to everyone

Enable global, low-cost transactions using blockchain technology

Empower people with a utility token for future applications in DeFi, remittances, and governance

While BRX is not directly affiliated with BRICS governments, it echoes their long-term goal: creating a fairer, decentralized, multipolar economic system.

3. Understanding BRICS

BRICS is an international group of five major developing economies:

Brazil – Agricultural and industrial powerhouse

Russia – Leading energy exporter and geopolitical force

India – Fast-growing tech, trade, and services hub

China – Global leader in manufacturing and trade

South Africa – Africa’s most industrialized and resource-rich economy

Together, they represent:

Over 3.2 billion people (41% of world population)

31.5% of global GDP (PPP)

Over 16% of global trade

This alliance is committed to reshaping the world order and reducing dependence on Western-dominated financial institutions.

4. BRICS Expansion

In recent years, the BRICS bloc has taken serious steps toward expansion — inviting more countries to join their shared mission.

Country	Status	Strategic Value
---------	--------	-----------------

Saudi Arabia	Accepted/Observer	Energy security and Gulf power
Iran	Applicant	Oil & gas exports, anti-sanctions stance
Argentina	Interest shown	South American influence
Egypt	Applicant	Strategic trade and Suez Canal
UAE	Interested	Financial innovation, global hub
Indonesia	Possible member	ASEAN leadership, major population
Ethiopia	Observer	Gateway to East Africa

These expansions will make BRICS not just a political alliance — but a new global economic and financial alternative.

5. BRX Coin Tokenomics

Feature	Detail
---------	--------

Token Name	BRICS Coin
Symbol	BRX
Total Supply	1,000,000 (1 Million)
Decimals	18
Blockchain	Binance Smart Chain (BSC)
Smart Contract	0x537b5E7Ff9e72845037Ae81c1aBC64DA2abf0b9B

Distribution

AllocationPercentagePurpose

Public Airdrop15%Community and global adoption
Liquidity Pool35%Trading support and DEX liquidity
Team & Development10%Development and growth (locked)
Ecosystem Growth20%Partnerships, DApps, integrations
BRICS Treasury10%Governance and future reserve use

6. Roadmap

✓ Phase 1 – Launch Stage

Token Deployment

Website and Whitepaper Release

Airdrop Campaign

Initial DEX Listing (PancakeSwap)

↔ Phase 2 – Growth & Utility

Listings on CoinMarketCap & CoinGecko

Launch of BRX Governance System

Mr. BRICS News & Community Education

Cross-border use-case campaigns

Development of BRX DeFi apps

→ Phase 3 – Ecosystem Expansion

Mobile Wallet (iOS & Android)

Staking & Yield Programs

Payment Integration Pilots

Real-world Utility Partnerships

Multichain Support

7. Use Cases

BRX Coin will be used for:

Governance – BRX holders can propose and vote on changes

Utility – Used in apps, swaps, or community-driven services

Staking – Future programs to earn rewards for long-term holders

Airdrops & Rewards – Community engagement and onboarding

Symbolic Power – A decentralized asset representing BRICS unity

8. Decentralized Governance

The BRX community is at the core of this project. Future decisions — such as updates, partnerships, burns, or development paths — will be proposed and voted on by token holders through decentralized governance protocols.

This democratic structure ensures that BRX remains fair, transparent, and accountable.

9. Join the Movement

This is not just another token. BRX represents the voice of a new world order — built on respect, sovereignty, and decentralized economic strength.

Whether you're a crypto enthusiast, a believer in multipolarity, or simply a supporter of fair global finance — BRX is your token to hold.

Be part of the BRX movement. The future is decentralized.
